

Information on „CalProp65“, „PFAS“, „TRI“ and „TSCA“

As part of company policy, **RK Rose+Krieger GmbH** has committed to not using any substances which are suspected of being damaging to health or the environment.

Moreover, **RK Rose+Krieger GmbH** also ensures that the legal obligations from European directives and German laws to which the company is subject, are adhered to.

The "**California Proposition 65**" (**CalProp65**), "**Toxics Release Inventory**" (**TRI**) and "**Toxic Substances Control Act**" (**TSCA**) are USA standards which do not represent any legal obligations for **RK Rose+Krieger GmbH** as a German company.

Therefore, please understand that we neither test our products for the listed substances, nor do we question our suppliers in relation to these substances.

Consequently, we are unable to rule out the possibility of these substances being contained in components we use.

However, so far, no information has come to our attention indicating the presence of the substances in our products.

Yours sincerely,

RK Rose+Krieger GmbH
